

COR

What is COR

The Certificate of Recognition Program is an occupational health and safety accreditation program that verifies a fully implemented safety & health program that meets national standards. The objectives of COR are to provide industry employers with an effective safety and health management system to reduce incidents, accidents and injuries as well as their associated human and financial costs.

COR is nationally trademarked and endorsed by participating member of the Canadian Federation of Construction Safety Association of which the Construction Safety Association of Manitoba is a member.

Perfect Landscaping Ltd through due diligence and hard work obtained their COR in May of 2009. We in the past had always aimed to provide our employees with a safe and healthy work environment (as well as protecting the general public) and will continue to work even harder to meet or exceed the COR requirements.
